

THREE MILLIONS

Of Gold Nuggets Brought to Seattle: From the New Eldorado.

KENTUCKIANS HOPE TO GET RICH.

A Laurel County Murderer Claims Self Defense for To-Day's Crime.

A TERRIBLE DEATH IN LEXINGTON.

Seattle, Wash., July 19.—The steamer Puritan has arrived here with three million dollars of gold nuggets on board. The excitement of the people is now at a white heat. Hundreds of prospectors of all classes of people will start for Alaska today. The only trouble now seems to be the lack of steamer service to convey the prospectors to the new fields. Thousands will leave in the next few days.

Fatal Lamp Explosion.
Lexington, July 19.—Mrs. P. H. Idols was burned to death this morning as the result of a lamp explosion. Her sufferings were terrible. Her babe was in her arms at the time and it is fearfully injured, but not thought to be fatally so.

MURDER AND SUICIDE.

Jealous of His Wife, Whom He Had Deserted.

Dixon, Ky., July 19.—Joel Warren today shot and killed his former wife, whom he had deserted over five years ago. She had since then married and her first husband was maddened with jealousy. After killing his former wife Warren turned the fatal pistol upon himself and shot himself dead.

GOLD KENTUCKIANS.

Leave for the Famous Gold Fields Today.

Louisville, Ky., July 19.—The exodus of fortune hunters from Kentucky has already begun. James Larbee, of Oldham county, left for the Northwest this morning. Others are expected to follow.

KILLED THE PEACEMAKER.

Fatal Ending of a Mountain Scrap Yesterday.

Williamsburg, July 19.—Walter Byrd who was acting as peacemaker in a fight in this town yesterday, was murdered by Tom Rudy. Byrd is another man with the above result. Byrd's friends are very angry and promise to make trouble.

ANOTHER ULTIMATUM.

The Ambassador's Curt Reply to the Sultan's Letter.

Constantinople, July 19.—At Saturday's sitting of the peace conference Tewfik Pasha, the Turkish Minister of foreign affairs, submitted to the conference a new frontier scheme which was acceptable to the powers, and the ambassadors thereupon informed Tewfik that the conference would adjourn until he brought a written acceptance by the government of the frontier line traced by the military attaches.

AMBITIOUS MARY ELLEN.

Mrs. Lease Announces Her Candidacy For Governor of Kansas.

New York, July 19.—A special dispatch received here tonight from Topeka, Kan., says that Mrs. Lease has announced her candidacy for Governor.

THE SAME OLD STORY.

Murderer Claims That Self Defense Caused His Terrible Deed.

London, Ky., July 19.—Word has reached this town of the killing of Ed Seales in this county this morning by Tom Powder. No particulars are known of the crime. Powder claims self defense.

NOT SATISFACTORY

Is the Report of the Tariff Conference to the Southern Democrats.

Thought That the Tariff Fight May Begin All Over Again.

Washington, D. C., July 19.—The report of the tariff conference is not at all satisfactory to the southern Democratic senators who have been voting with the Republicans. The avowed duty on cotton has been knocked out. The tariff fight may begin all over again.

THE BIG STRIKE.

Women Declare Themselves in the Big Miners' Strike.

TROUBLE IS NOW THREATENED.

Hunger and Discontent Beginning to Assert Themselves.

ARBITRATION REQUIRED AS FUTILE.

Pittsburg, Pa., July 19.—The events of today in the Pittsburgh coal-mining district indicate there is trouble ahead. The strike has been on for two weeks, with no cause for alarm in any quarter, but today the pangs of hunger and mutterings of discontent have taken tangible form, and 1000 miners marched on Canonsburg, the objective point being the Boone and Allison mines. A few days ago the operators of these mines made a requisition on the sheriff of Washington county for additional deputies. It is supposed that there are at least thirty deputies at each mine, well armed for any friction that may take place.

The miners expect to be at the mines when the offending diggers are ready to go to work, and will use every influence possible to keep them from going into the mines. Some of the most conservative of the leaders claim there will be no bloodshed. They say when the colliers see such a big demonstration in favor of what they term a peaceful battle for bread they cannot enter the mines and retain their manhood. Every effort was made to keep the movement a secret, for fear the force of deputies at the mines would be further increased. Just what the result will be it is difficult at this hour to tell. The men are known to be in a condition of semi-insanity on the strike question. They have been goaded on by suffering wives, daughters and sweethearts, and it appears as if it is the beginning of the end of the strike.

The negotiations to induce the coal operators of this district to sign a uniformity agreement are still going on. The commissioners having it in charge feel as if they would be able to accomplish it. Secretary G. Frank Schmidt said tonight the prospects were brighter than they have been since negotiations began. He said that within the next few days powerful and potent influences would be brought to bear on the operators. With the strike in the present condition the chances were for the successful consummation of the agreement.

As an evidence that the operators are not counting on arbitration it was announced tonight by a prominent operator if the strike in West Virginia does not prove successful the Pittsburgh operators will make an effort early next week to start their mines at the sixty-nine-cent rate, the mine now asked by the strikers. They will claim that as they are willing to pay the price as the law must protect them in the operation of their mine.

RATCHFORD'S VIEW.

Says Victory Must Ultimately Come to the Strikers.

Columbus, O., July 18.—President Ratchford today sums up the strike situation as follows: "The manner in which the miners are conducting themselves commends itself to the country and gives their officers renewed encouragement and strengthens the belief that victory will ultimately crown their efforts. "The history of industrial strife has no parallel to the present movement. Deputy marshals, coal and iron police and secret detectives have been at work, but their presence has failed to incite the miners to acts of lawlessness, or even to a resumption of work."

We have started into this movement realizing fully the importance of the work before us and the responsibility resting upon us, and after two weeks of suspension, involving more than 150,000 miners, we are well satisfied with the results. Only those who are best acquainted with the condition of the miners have any idea of the extent of this suspension and its paralyzing effects upon the labor and business of the country. It has not yet reached its full proportions. The coming week will add 20,000 men to the idle column. The week following will bring greater accessions to our ranks. The movement will continue to grow, not only from the point of number involved, but public opinion will become crystallized more fully and through the press of the country will demand a solution of this great difficulty.

THEY WANT DEBS.

West Virginia Miners May Strike as Soon as He Arrives There.

Wheeling, W. Va., July 18.—Just why it is so may be a mystery to some, but it is a fact nevertheless, that Eugene V. Debs will be able to do more just now toward bringing out the miners in the Fairmont region than any other man. A big meeting at Monongah today demonstrated this when a local miner got up and declared that as soon as Debs came into the region the men would strike and that his influence would be greater than all the

offers of the operators to pay bonuses on coal mined. This sentiment was loudly cheered. The organizers at work there admit that he must be brought into the field, and tonight it was announced that he will be at Fairmont on Tuesday. Everybody wants to hear Debs.

NEWS NOTES.

Many Bourbon farmers have sold their wheat crops at 58 and 60 cents per bushel.

A census expert estimates that the population of this country by the year 2000 will be 385,860,000.

The Colorado smelters are reopening. Silver can stand on its own merits, and there is nothing like doing business on business principles.

Seven thousand tons of steel rails have been shipped from Maryland to India. Our manufacturers have no reason to complain about their recognition.

Mr. Aus Thompson, the veteran merchant and farmer of Casey county, has 10,000 bushels of blackberries on his farm, free to all who will pick them.

Our fastest torpedo boat at present has a record of thirty-five miles an hour. A few duplicates on our coasts could make it interesting for Spain and Japan.

A circular just issued by the department of agriculture relative to Hawaiian commerce shows that the United States controls 90 per cent of the entire trade of the islands.

If Spain attacks us on the East, Japan on the West, Canada on the North and Chili on the South, Uncle Sam will begin to get mad, and may annex something more than Hawaii.

New York City is running ten vacation schools this summer on the lines of manual training. They provide moderate studies for 100,000 children who would otherwise be in the streets.

JAPAN'S GREED.

Bee of Conquest Said to Be Buzzing in Its Headgear.

Colorado Springs, Col., July 19.—H. P. Mallbridge, who was Consul General from Hawaii to Japan during the reign of King Malakaua, has written a letter to Senator Hanna in which he says: "Please say to both McKinley and Sherman that I know whereof I speak, when I tell you the designs of Japan on Hawaii are exactly as intimated in the editorials of the Japan Herald," notwithstanding all the denials that Hoshi Toru Sami can make.

"Ever since Japan captured the Lu Kiu islands in 1875 the bee of conquest has been buzzing in her headgear. Her more recent success in Korea and China, and her acquisition of Formosa, as well as the submarine, undignified walk visa vis which our government of political jobs presents to them and to Spain furnish all the incentive and encouragement necessary to justify Japan's idea that Hawaii will be an easier conquest than any that have gone before, if she moves quickly."

Wheeling, W. Va., July 19.—The prospects now are that two-thirds of the miners in this state will quit tonight. If such happens the miners will win.

CUT ON THE HEAD.

Son of Mr. Hal Corbett Hurt By Glass.

A little son of Mr. Hal Corbett, the lawyer, was struck by a fragment of glass, thrown in from a window, the eldest son of Dr. P. H. Stewart, this morning, and painfully but not seriously wounded on the head.

PIERCE PRISONERS.

White and Colored Alleged Housebreakers at Brooklyn.

JOHN STALL IN JAIL.

Charged With Breaking Into Several Houses Including the Postoffice.

TRIAL BEGAN THIS MORNING.

A sensational arrest was made Saturday night at Brooklyn, Ill., by Marshal Grimes, John Steele, a well-known saloon keeper, was arrested on a charge of housebreaking. The warrant was sworn out by Mr. Willis, of the saloon firm of Willis & Sons, whose establishment was broken into on the 27th of last month, and \$40 were taken.

Friday night a shantyboat occupied by a colored man known as "Jaybird" was broken into, and about \$13 were stolen. Jasper Martin, a colored boy, was arrested, and claimed that he did it at the instance of Steele, who furnished him a large chisel with which to gain entrance to the house.

He then admitted that Steele has for some time been using him as a tool, and confessed to breaking into Willis' saloon and stealing the \$40— or rather, he said Steele forced open the door and himself went in and secured the money, giving him \$5 to remain on the outside and watch.

Friday night the postoffice at Brooklyn was robbed, but the thieves did not succeed in getting but fifty cents. In the same drawer, however, was a dime with a hole in it, and this was found in Martin's pocket when he was searched, in addition to sixty cents more.

Saturday night when the warrant was gotten out, Marshal Grimes was awakened and went out to execute it. He knew Steele was at a picnic, and going to the woods where it was being held, he crept up unobserved and found Steele running a big crap game. He watched them for some time, and could have easily arrested the whole crowd, but in so doing would have run the risk of letting Steele, the principal malefactor, escape, and rather than run the risk he let the others go and captured Steele. The latter indignantly denies the charge, but his reputation has never been the best in Brooklyn, and the belief this morning was that the commonwealth had a clear case against him.

The trial of the two defendants began this morning in Brooklyn, and there was a large crowd in attendance, and much excitement, the case proving the most sensational in several months.

The postoffice robbery is the most serious of all, and if this can be traced to their door, the government will make it hot for them.

The man, when seen, always runs.

BRAKEMAN INJURED.

Contractor Katterjohn is Back From Chicago.

THE PAY TRAIN HERE.

A Change in the Sleeping Car Schedule of the I. C.

OTHER NOTES OF PUBLIC INTEREST.

W. L. Cottrell, a colored brakeman and porter for Conductor Sewell on the I. C., was seriously injured last night at Fulton while coupling cars.

The train was on a "Y," and the two sides closed together near the inside of the track, crushing his head between the coaches. He was picked up and carried for until this morning, when he was brought in at 8 o'clock and carried to the railroad hospital. His home is in Louisville.

The pay train arrived this afternoon shortly after 1 o'clock and paid off the Union Depot men, and proceeded to Louisville. The paymaster is not due until Thursday, but paid off a portion of the I. C. men while en route east this time, in order to facilitate payment Thursday, when Paymaster Powell expects to get as far as Atoka, instead of Newbern, as heretofore, reaching Memphis in time to pay the I. C. men Saturday.

Contractor F. W. Katterjohn returned last night from Chicago, whether he was called to confer with the I. C. officials in regard to a matter not yet made public.

Mr. Katterjohn was seen by a Star reporter today, but stated he was not yet at liberty to divulge the nature of his business at Chicago or its result.

It is not thought, however, that further improvements are contemplated here, just yet, at any rate, but that Mr. Katterjohn was consulted about improvements at other places. It was intended to enlarge the round house, but it is understood this has been abandoned until next year. Local officials know nothing about any additional improvements here.

Yesterday five coach loads of St. Louis excursionists, 300 in number, arrived at 2:25 o'clock and remained in the city until 6:30. They all appeared to be of the better class of people.

New time cards went into effect yesterday on every division on the entire Illinois Central system, but no passenger trains were affected by them.

The Paducah sleeper, which now arrives at the union depot at 12:10 p. m., will arrive after July 25 at 1:25 a. m. instead. This is quite an important change. The sleeper now leaves Louisville in the early morning hours, and passengers are accorded the privilege of retiring at 9 o'clock or anytime they choose thereafter. The sleeper after the 25th will leave Louisville at 7:06 p. m., and arrive here at 1:25 a. m., and passengers will be allowed to remain aboard until 7 o'clock a. m.

The meeting point of trains 210 and 522 has been changed from Claxton to Scottsburg, but the time of meeting is the same.

Civil Engineer E. H. Bowser went up the road this morning.

The passenger train which arrived at noon carried nine coaches. Baggageman T. H. Beales, of the St. Louis division, had two of his fingers badly mashed yesterday by a closing door. He will lose both nails.

The Sun is authorized to announce
J. T. DEAN
As a candidate for Constable in the Sixth
Magisterial district, subject to the action of
the Republican party.

Mr. BRYAN is only making about
\$25,000 a year, and in gold too.
Pretty good wages for a calamity
howler.

No, Friend "Register," the can-
cuses two years ago were not held in
Councilman Rinkeloff's office. Wrong
again as usual.

INDICATIONS WARRANT the belief that
the new tariff law will be satisfactory
to a larger number of people than
any other tariff measure ever put up
on the statute books in this country.

JUDGMENT from the fabulous gold
deposits discovered in the Alaskan
mining region and the rich mines
just found in California and Arizona,
gold bids fair to become the poor
man's money.

This free silver orators had much
to say of the relation of wheat and
silver. Now the relation that is
most noticeable is that between
wheat and Bryanism. As wheat goes
up, Bryanism goes down. This re-
lation needs no diagram.

It is said the attitude of Senator
McLaurin, of South Carolina, on the
tariff question has materially im-
proved his chances for re-election to
the United States Senate. Senator
McLaurin is for protection and his
constituents approve his position.

Mr. BRYAN loves to talk about
poor people. Well, when he goes to
Mexico he will find poor people, sure
enough. Not hundreds only, but
thousands and millions. People that
have no counterpart in this country,
and people to whom a hut of sand-
dried clay bricks is their sole dwelling.
He will find other things in that free
silver country. But we don't be-
lieve he will have much to say about
them when he comes back.

Tax silver wing of the Democratic
party is very much depressed by the
developments in the various states in
which campaigns are in prospect. In
every one of these states, gold Demo-
crats are actively at work preparing
to run tickets of their own, and the
preliminary work which has been
done indicates that a much larger
percentage of the Democracy will ally
itself with the sound money men this
time than was the case last year.
Many Democrats who last fall felt
bound to support the national ticket
and platform will this year co-operate
with the sound money men of the party.

THE "REGISTER'S" SLEEN.
The effort of the "Register" to
provoke trouble in the Republican
ranks in this city are ludicrous in the
extreme, and will deceive or influence
no one. The "Register" is too coward-
ly to have any influence; it does not
even express an opinion on the
financial question that is uppermost
in the ranks of the Democratic
party. It is endeavoring to carry
water on both shoulders and hopes to
catch the support of free silver and
Sound Money Democrats, while be-
ing too craven a time server to have
any opinion itself. It hopes to make
itself solid with the free silver el-
ement, for it has utterly lost the re-
spect of the Sound Money Demo-
crats, by its scurrilous remarks about
certain prominent Republicans.
That political halfbreed vainly im-

agines that the only way to curry fa-
vor with its own party is to malign
the character and denigrate the busi-
ness reputation of its political oppo-
nents. All the world loves fair play
and respects the man who has the
courage of his convictions, even if he
is in the wrong. But all the world
despises a meddler, it has no respect
for one who seeks to better his posi-
tion at the expense of another's re-
putation, and a newspaper that is
afraid to have an opinion of its own
is the most contemptible thing of all.

The Republican city convention
next Wednesday will nominate a
straight out Republican ticket. It
will nominate a ticket that will meet
the approval of the business men and
the taxpayers of Paducah, and in
whose hands the interests of Paducah
will be perfectly safe. Wadon't
expect the ticket will please the spot-
less and immaculate "Register." Be-
ing a ticket that has views and prin-
ciples of its own it will be clear above
the comprehension of that emascu-
lated sheet. Whoever the Republi-
can nominee for mayor may be, he
will far surpass the "Register" in
political honor and in the courage of
his convictions. In the campaign
that follows the nominee will expect
nothing from the "Register" but
slander and the treatment that comes
from a ward heeler. The Republican
nominee will be a gentleman who will
much prefer the venomous abuse of
the "Register" than its slimy friend-
ship.

No true Republican will be de-
ceived by the soft soap that the
"Register" is using in certain cases.
Any Republican who allows himself
to be led into making an independ-
ent race for mayor will find when the
votes are counted how greatly he was
duped. The very ones who would
now advise or are advising an inde-
pendent race would be the last ones
to vote for an independent Republi-
can and would be the first ones to
guy him after the poles are closed.

The Sun wants to see a full con-
vention next Wednesday. It is not
advocating the claims of any one
candidate. It will support the nomi-
nee. We want to see every Republi-
can in Paducah present. We hope
that the "better element" will fear
itself away from the "Register"
office long enough to take an active
part; and when the ticket is named
we shall expect every Republican to
support it. We cannot all be pleased.
When there are opposing candidates
some one must be disappointed. But
a true Republican always votes the
straight ticket.

MORE REPORTS

OF THE WAVE

What the Boston "Post" and
Bradstreet's Think of
the Situation.

Remarkable Increase of Bank
Deposits in the West.

Enormous Wheat Crops Will
Bring Millions of Dollars to
the Farmer.—Vast Num-
ber of Farm Mortgages
Being Paid Off.—Pros-
perity is at
Hand.

The farmer, as well as the manu-
facturer, has prosperity in immediate
prospect as well as in hand. Ad-
vices from abroad indicate that the
great grain countries of the world are
producing unusually light crops this
year, a marked decrease in wheat
harvests being probable in Russia,
Germany, France, Hungary, and In-
dia, while comparatively little is
counted on from the Argentine Re-
public or Australia. This promise
to the United States an unusual de-
mand for our grain, and at corre-
spondingly good prices. "Brad-
street's," which is usually decidedly
pessimistic in its views for the future,
looks very favorably upon the pros-
pects of the agriculturalists of the
country at this time, and says, in
commenting upon the grain conditions
abroad: "This brings the United
States to the front as a foremost
wheat exporter, under somewhat simi-
lar conditions to those which existed
in 1879, a period of revival from the
preceding great panic." The same
publication also calls attention to the
fact that prices of most farm prod-
ucts have increased during the
month just ended, a table published
in its issue of July 10th showing an
advance during June in the prices of
cotton, tobacco, bacon, rice, lard,
cotton-seed oil, peas, milk, wheat,
barley, oats, corn, and cotton seed,
while among the 98 articles represent-
ed in the table but few farm products
have decreased in price.

The reports of western prosperity
are coming in daily. That the farm-
ers of the United States are entering
upon an era of prosperous times

there seems to be no doubt. Speaking
of this the Boston "Post" says:
"From both the railroads and the
farms of the West come cheering re-
ports. It is not only increased
earnings that the roads report, but
an increase in the aggregate tonnage
during the last few weeks of the half
year just closed, which indicates the
improvement of general business con-
ditions. So significant is this that
the outlook is considered to be favor-
able for a larger movement of mer-
chandise than has been known for
many years. At the bottom of this
improvement is the crops. The farmer
makes the railroads possible; trans-
portation draws its business from the
cultivation of the soil. It is from
the West that we look for prosperity
to come. That is the section on
which the depression settled first and
most heavily. The West has suffered
most cruelly from the hard times.
And now it is from that section that
we get the first gleam of returning
prosperity. It is a healthy indication
that we have here. At points to a
building up of good times from the
solid foundation of a fruitful soil.
Agriculture is still the basis of the
country's prosperity."

Prosperity in Pacific Coast States.
Portland, Ore., July 16.—The
farmers of Oregon, Washington and
Idaho, owing to the good price of
wheat, have been enabled to pay off
most of their mortgages, and this
year will get almost entirely out of
debt.
Bright Outlook in Arkansas.
Little Rock, Ark., July 16.—Al-
though crops in a portion of Arkansas
were cut short by drought last
year, the people by economy, are
getting out of debt. The people look
forward to an era of railroad build-
ing in the very near future unpar-
alleled in the history of the state from
which they confidently expect good
results.

Iowa Mortgages Wiped Out.
Des Moines, Io., July 16.—In-
vestigation made here through local
agencies and financial institutions re-
veal that Iowa farmers have been
paying off rather than adding to their
mortgages. There are few farmers
who are behind on interest payments
on mortgages. Money was never
more plentiful in Iowa than it is now
for loaning purposes.

GLUT OF MONEY IN COLORADO

**Banks Used Merely as a Place of
Deposit.—Farmers and Fruit
Growers Prospering.**

Denver, Colo., July 16.—Colorado
has paid off debts approximating \$2,-
000,000 since the first of the year,
and bankers report more money in
their vaults than they can possibly
find use for. The First National Bank
of Denver on the first of the
month had \$10,000,000 in deposits,
the greatest in the history of the in-
stitution, which is the oldest in the
state. The managers say that they
find less demand for funds than at
any time since they embarked in busi-
ness, and that the bank has simply
become a place of deposit, owing to
the prosperous condition of the city
and state, which precludes a ready
market for loans.

Never has there been so much
loose money in the Western country,
owing mainly to the introduction of
feedings, which has superseded the
old-fashioned range system in live
stock raising. Colorado farmers
have embarked heavily in the feeding
of both beef and sheep, and have
taken the place and profits that for-
merly accrued to the corn growers.

BETTER TIMES IN MISSOURI.

**Increase in Business Corporations
Indicates Growing Activity.**

Jefferson City, Mo., July 16.—
An examination of the records in the
office of Secretary of State Leasure
fails to bear out the assertions of the
silver Democrats and Populists that
hard times continue in Missouri, and
that they are growing harder. The
incorporation of new business cor-
porations can be considered an infallible
index to the business situation. In-
fact, it shows the movement of capi-
tal more clearly than any other test.
The records of incorporation in the
Department of State show that for
the three months ending July 1,
1896, 135 corporations were formed
in Missouri, and for the same period
of 1897, that is to say, from April 1
to July 1, there were 196, an increase
of sixty-one. In making this com-
parison it was noticed that the capi-
tal stocks of the corporations formed
in 1897 were larger than those of
1896.

These figures show a tendency
toward better times and a healthier
state of business, which even the
most deluded and enthusiastic Bry-
anite cannot deny.

South Dakota's Great Showing.
Sioux Falls, S. D., July 17.—The
various local agents of Sioux Falls all
agree that the last four years have
been years of wonderful debt paying.
D. L. McKinney said that \$50,000,
000 would just about cover the ag-
gregate of the debt liquidated in that
time. When the hard times struck
South Dakota four years ago, people
stopped going into debt because they
could find no one of whom to bor-
row. Then came an era of close
economy, followed by a superhuman
effort to get out of debt. For the
last two years crops have been good,
and for the last year have sold for a
good price. The creamery industry
has brought into the state \$3,000,000
a year, and live stock \$25,000,000.

Fancies in Belts.
Belts of all kinds are preferred an
inch and a quarter wide.
Leather now may be had in all colors
to match all goods.
The harness belts with severely plain
buckles are considered very stylish.
Tweed and unlined belts are
desire, but should never, under any
consideration, be worn with cotton
shirt waists or cotton dresses.—Chi-
cago Record.

THRILLING BOAT RIDE.

**Narrow Escape of Several of the
Casino People.**

**Almost Run Down Twice by the
Steamer Joe Fowler—All
Got a Ducking.**

Manager H. J. Foppe, Mr. Oliver
Fiske, and Misses Bowen and Mc-
Donough, of the Casino stock com-
pany, had a thrilling experience in
the middle of the river yesterday af-
ternoon while out boat riding. They
were leisurely crossing in a light
skiff when the Joe Fowler—from
Evansville, came down stream and
narrowly missed running them down.
They escaped the big steamer, but
were left directly in the wake of her
waves, which caught the boat side-
wise and almost swamped her, dash-
ing over the occupants until they
were completely drenched.
They were just congratulating
themselves over their lucky escape
when the pounding steamer, after
turning, started up to the wharf.
This time their escape was little short
of miraculous, for the skiff was missed
by only a few yards, and the waves
again engulfed the occupants. The
ladies displayed great presence of
mind, which was of incalculable ad-
vantage under the trying circum-
stances, but to the heroic action of
Mr. Fiske in his race to beat the
steamer is ascribed the escape of the
frightened pleasure seekers.

AMUSEMENT NOTES.

**"The Factory Girl" at the Ca-
sino—"The Pay Train"
at LaBelle.**

**Several Changes at the Two The-
aters This Week.**

Tonight "The Factory Girl," with
Miss Lillian O. Bowen in the title
role, will be the attraction at Casino
theater. The play is one that cannot
fail to please, and a good crowd will
no doubt witness it. The cast is:
Sir Arthur Lassell..... Oliver Fiske
Jasper Plum..... Ed F. Bourne
Stephen Plum..... Harry D. Bowen
Frederick Plum..... Paul Fainbach
Toby Gibble..... Henry J. Foppe
Martha Gibble..... Roy Woodson
Martha Gibble..... Lillian O. Bowen
Lady Leatherbridge..... Nellie McDonough
Lady Valeria Westonleigh..... Laura Deane

Mr. Ed G. Bourne, wife and
daughter, little Miss Hazel, arrived
Saturday evening to join the Casino
Stock Company, and Mr. Bourne
comes on tonight, while his wife and
daughter are cast for the latter part
of the week. All are experienced and
talented people. Mr. George W.
Wright, who has appeared in comedy
and heavy since the season opened,
leaves tomorrow for Lawrenceburg,
Ky., to join the Arnold-Wells play-
ers. His many friends will regret his
departure.

Miss Laura Deane, soubrette at
the Casino, leaves Friday for
Elmira, N. Y., to join the
Course Peyton Company, as
announced several days ago. Mr.
and Mrs. Bourne, whose arrival is
noted above, will fill the two vacan-
cies, while Miss Hazel Bourne will
appear in juvenile and specialties.

"The Streets of New York" is the
bill for the latter part of the week.

"The Pay Train" will be the bill
at La Belle park tonight, and will no
doubt draw well. Mr. Phillips and
his company take the road early this
season, about August 9th, and
whether another company will be
signed for the remainder of the sea-
son is not yet settled.

Manager Fletcher Terrell has
booked some good attractions for the
coming season. As usual he declines
to make public any of the names of
coming players.

The latest gossip of the stage is
that Frederick Ward's next season
will begin at Philadelphia on Sep-
tember 6, with an elaborate pro-
duction of W. D. Eton's play,
"Lekander."

Frank Daniels, who played here in
"Little Ruck," the season before he
began a brilliant New York season
which established his reputation as
one of the best singing comedians in
the country, will be seen next season
in a new comic opera, "The Idol's
Eye," by Harry B. Smith and Vic-
tor Herbert, under the management
of Frank La Shelle, who will also
send out again "The Wizard of the
Nile."

The trouble existing between Het-
ty Green and Russell Sage has been
utilized by Lillian Lewis and Lau-
rence Marston, in the Widow Gold-
stein, Cy Russell taking the part of
the philanthropist, and Hetty Gold-
stein presenting the character of the
richest woman in the world.

Robert Downing is arranging
scenic effects for The Gladiator and
Samson, which surpasses in realism
anything heretofore presented by the
versatile tragedian. His David will
be given with scenic review of the
time of Israel, and wild beasts will
be introduced in the arena. Eugenie
Blair, his wife, will head a company
in Camille, the New Magdalene, Jane
Eyre, and like productions.

A Small Painting.
Perhaps the smallest piece of paint-
ing in the world is that executed by a
Flemish artist. It is painted on the
smooth side of a grain of common white
corn, and depicts a man and a milk
maid, with a sack of grain on his back. The
miller is represented as standing on a
terrace, and near it is a horse and cart,
while a group of several peasants is
shown in the road near by.—Chicago
Times-Herald.

MAINE BARKERS.

They Hunt the "Barksters," Monkeys
Speed, and All Aboard Henry Men.
The word "barker" as it is used in
the Maine backwoods signifies a man
who is master of a profitable trade.
The barker is a man who is hired
to remove the dazzling events in the
line of the museum freaks, but an
upriver barker is a muscular, mos-
quitoe-eater whose life's business is
to take the bark from hemlock trees
and to shape for use in the turpene-
ry. Last week a down-river employ-
ment agency sent more than 1,000
barkers to this town and beyond, all
of whom will work from now until
September, and will get \$2.50 a day,
each, rain or shine, for all the time they
are in the woods. In addition to this,
they will receive board and lodging and
free transportation to and from their
work. When it is remembered that the
best lumbermen were paid but \$22 a month
and trained pulp mill men—saw mak-
ers and diggers—can be had at \$1.25
to \$1.50 a day each, without board, the
wages demanded by the barkers seem
proceed and out of proportion to the
kind of labor they have to perform.

In old days, when hemlocks were as
plentiful as gray birch, and every
farmer had his hemlock lot, the bark
was peeled in the summer, dried in the
fall, and hauled out to the tannery in
the winter. This was the method fol-
lowed for more than a century. As the
hemlock was driven back to the borders
and the tanneries still demanded more
and more of the tannic acid, various
substitutes were tried, including yellow
birch, oak, sumac and sweet fern,
but none proving so good as hemlock,
new efforts were made to secure what
the trade demanded. At a time when
hemlock was very cheap, a Maine syn-
dicate, which included Senator Eugene
Fiske and ex-Gov. D. F. Davis, bought
up about all the available growth in
the state, and so soon as the deal
completed that the price of tanning
material began to go up by bounds.
The market would have been cornered,
and most of the tanneries had been
forced into bankruptcy if somebody had not
discovered that the remote hemlock
bark, which was so far in the woods
that its cost of transportation would
hinder its removal, could be belled
down and the tannin condensed so that
three cords of bark could be put into
an ordinary barrel. This discovery
enabled a pair of horses to carry more
tannin than ten teams had been able
to haul, and gave the tanners another
chance for their lives. Beginning in a
small way, the extract works increased
in size and number until most of the
hemlock in Maine is shipped in barrels,
as in nickers or kegs.

The business of the Maine barker is
the direct outcome of this change. Not
only must he know how to fell trees and
peel bark, but he must be a skilled
cooper, who can split and shave staves
and hoop poles, put them together and
insert the heads, and warrant his bar-
rels to be firmly made and water-tight.
Living for months many miles from a
highway or a railroad, he must be a
carpenter and blacksmith as well as a
cooper and bark peeler, and if he has
any other trade or knack of doing work
it all counts in his favor and tends to
increase his pay or prolong his job.
There are scores of farmers and lum-
bermen in Maine who get along as best
they may for nine months in the year
and rely on what they get from bark-
ing for their spending money and luxu-
ries. Owing to the introduction of
the hemlock bark, as cheap to-day
as it was ten years ago, and the men
who bought hemlock growth hoping
for a rise in price are waiting until
no more extract can be made before
they sell their bark. As the time is
coming when they will own all the
hemlock in the United States, but
meanwhile they fear some new tanning
process will be discovered which does
not require hemlock. For these reasons
the bark owners are not wholly
happy, while the barkers continue to
enjoy themselves.—N. Y. Sun.

THE QUEEN'S NEW TRAIN.

**Royal Railroad Comforts for Her
Aged Majesty.**

While the principal railway com-
panies have always possessed special
saloons reserved for the use of her maj-
esty, there has been no regular "queen's
train" until the present year. Now,
however, the Great Western Railway
company, upon whose line the queen
travels frequently, has celebrated the
diamond jubilee by constructing a
brand-new train of six carriages—a
banqueting and, indeed, splendid
series of saloons connected by flexible
gangways. This is to be reserved en-
tirely for the use of the queen and royal
family. The queen's coach proper is
34 feet long, while the other saloons,
corridor coaches, baggage vans, and
average a slightly greater length. Her
majesty's own traveling compartment
is wonderfully comfortable, with every
possible contrivance and convenience
which can add to the monarch's ease
during her journey. Her favorite arm-
chair on a swinging pivot, and the sofa,
both upholstered in white silk rep, are
situated on one side, close to the great
plate glass windows, while within easy
reach of the royal chair is an electric
bell and a small folding writing table.
The compartments for attendants are
upholstered in white morocco, and the
train is illuminated throughout by the
electric light, which her majesty has at
last consented to employ. In her own
apartment a cluster of six incandescent
lamps give light, which can be regu-
lated to the taste of the occupant. The
exterior of this splendid coach has at
each of its four corners a large lion's
head surmounted by a golden crown. The
engine has special hydraulic devices,
which will be fitted to funnel and driv-
ing-wheel splashes, and the royal
train, thus drawn, must certainly pro-
vide an imposing spectacle for the
queen's subjects—London Black and
White.

Stage Hunting at Night.

Wonderfully elaborate open-air fetes,
when the scene of some mammoth or
comic drama is celebrated scenes in
connection with venery, were frequent
occurrences. Thus Louis XIV. more
than once held stag hunts at night, and
for that purpose the great forest of
Chantilly was illuminated with torches,
and the hunted star was forced to pass
through avenues lined by several thou-
sand men holding brightly flaring
flaming flambeaux in their hands. Sev-
eral of the princesses of his court were
daring hunters, and from the letters of
one of these royal ladies a dispatch
Orleans, we learn that in four years she
was present at the death of over a
thousand stags. Her descriptions of the
sport are most enthusiastic. "I
have had 25 falls, but have hurt myself
only once," she says in one of her let-
ters.—W. A. Ballie-Graham, in Cen-
tury.

thing to you tonight! He's a fake!'"

Dowling Won Saturday's Game at Louisville—Colonels Climbing.

OTHER BASEBALL NEWS.

It required ten innings to decide yesterday's game between Paducah and Washington. The score then stood 7 to 6 in favor of Paducah. McIlvaine pitched. The club goes to Evansville tomorrow.

OTHER GAMES.
Evansville, 6; Cairo, 3.
Henderson, 3; Terre Haute, 0.

SATURDAY'S GAMES.
Jones, the pitcher Paducah got in her exchange with Louisville, pitched his first game for the Indians at Washington Saturday and lost. The score was 14 to 12 in favor of Washington. Fifteen hits being made off Jones and eleven off Miller and Benn. The other games resulted: Evansville, 3; Cairo, 4.
Terre Haute, 4; Henderson, 7.

The new manager, Tom T. Farley, arrived Saturday afternoon from Chicago, and left at noon, accompanied by Catcher Clifford, to join the club at Evansville. Manager Pears will then step down and out.

A large crowd went out this afternoon to Association park to witness the game of baseball between the Fats and Leans of the colored barbers.

The local association has an offer to have Dr. Herbert H. Hunt, of Mayfield, pitch a game in the near future. If he twirls for the Indians four or five hundred people from Mayfield will come up.

Baltimore, 3; Chicago, 6.
Brooklyn, 1; Cleveland, 8.

SATURDAY'S GAMES.
Cleveland, 6; Brooklyn, 2.
Cincinnati, 14; Washington, 2.
Chicago, 2; Baltimore, 20.
St. Louis, 10; Philadelphia, 8.
Pittsburg, 5; Boston, 6.
Louisville, 3-12; New York, 4-6.

Louisville claims she was robbed of the first game with New York Saturday by the umpire. Dowling pitched the game, and although the Colonels had six errors to their credit, or discredit, they won the game by a score of 12 to 6.

Dowling struck out one man, gave three men base on balls and one by hit ball. He is also given one wild pitch. This is better than the Giants twirler did, however, and speaks well for Pete's first game in the National League.

A GRAVE CHARGE.

John Waters, a Calker, Arrested This Morning.

He is Charged With Detaining Little Dora Gardner, Aged Six Years.

John Waters, a well known calker about 55 years of age, who resides at 1017 South Fifth street, was arrested by Officer Frank Harlan this morning about 10:30 o'clock on the grave charge of taking undue liberties with Dora, the little 6-year-old daughter of Mr. George Gardner, the well known labor union man, who is now employed on the city's street force.
The charge is a most revolting one, and is not the first one of this character to be preferred against Waters. It has been investigated fully, and occurred two or three days ago at Fifth and Norton streets in broad daylight, near a grocery at that intersection.
Several workmen at the depot witnessed Waters' alleged disreputable conduct towards the helpless child, and reported it to her father, who went before Judge Sanders this morning and made affidavit to the above.
Waters was arrested by Officer Harlan and promptly denied the charges alleged against him.
A year or two ago he was arrested for similar outrages alleged to have been practiced on a daughter of Andy Brannon, who lived on a shanty boat below the iron furnace. He succeeded in clearing himself of this charge, but now he has a worse one to contest.

TOOK MORPHINE.

It Was His Second Unsuccessful Attempt.

A well-known German, who came here from Kuttawa several months ago, attempted suicide yesterday at his boarding house on Jefferson street by taking four grains of morphine, but was saved by the timely discovery of his condition. It was the second attempt he had recently made, prompted by despondency and a failure to get work.

A BOMB.

Clerk Wayne Turner Finds An "Infernal Machine."

A Dynamite Bomb or Something—On the Wharfboat.

Clerk Wayne Turner, of the wharfboat, is usually a very brave man, but this was one of his off days.
While shifting around barrels he found some sort of an "infernal machine." It was scrupulously wrapped in brown paper, sealed, and felt as if it were iron. It was eight inches long, and Col. Turner looked at it but an instant before he heaved it into the river.
He is confident it was a dynamite bomb but has no idea who dropped it, or what his purpose was.

BODY FOUND.

Remains of Gid Dollar Discovered This Morning.

The remains of Gid Dollar, the colored boy who was drowned at the foot of Trimble street Saturday a week ago, while in swimming, were found this morning by a colored man about a mile below the place at which the boy lost his life.
They were on the bank, where they had been cast up by the river, and were in a very bad state decomposition.

There was nothing by which the body could be identified except its size, and the man, who was fishing when the discovery was made, could not go near on account of the stench.
Coroner Nance went down this afternoon at 8 o'clock to hold an inquest, and the boy's parents were notified.

A DIVING HEN.

Furnishes Fun and Excitement at La Belle.

There was great excitement at the La Belle park lake yesterday afternoon. Mr. J. W. Hall has a "diving hen," or "demon," or some sort of a feathered wonder that cannot fly, but dives every time the shadow of a cloud hits across the surface of the water.
He offered a reward to anyone who caught it, and some thirty-three young men were diving about the lake after the elusive marvel in feathers. The bird would dive, then reappear, then dive again, in quick succession, but not once could any of the thirty-three touch it.

They emerged from the lake completely exhausted, finally, and without capturing the "hen." Fred Maher, of the city, heard of it, however, went out about 6 o'clock and donned a bathing suit. He and a type drummer both caught it in a short time and carried off the honors of the day.
